Microfilm #208168 of the Mormon collection contains births, marriages and deaths from 1798 1811 and microfilm #208171 contain marriages from 1811 1901. From 1800 on Mennonite marriages are included. Adalbert Goertz published the Mennonite extractions for 1801 - 1840 in *Altpreussische Geschlechterkunde* (1999; p. 375). I have translated and slightly rearranged Adalbert's transcriptions for 1801 - 1820. My comments and additions are in square brackets [] and statements in quotes are comments taken directly from the microfilm without translation. Unless a person is designated as a widow or widower assume that the person was not previously married.

Note that the register contains no Mennonite entries for the years 1802, 1804 1811, and 1818.
