# Chortitza Mennonite Settlement Census for November 1807 <br> <br> State Archives of Dnipro Region (DADO) <br> <br> State Archives of Dnipro Region (DADO) Fonds 134, Series 1, File 175 

 Fonds 134, Series 1, File 175}

## Translation by Tim Janzen; comments by Richard D. Thiessen

This is a census for the Chortitza Mennonite Settlement for November 1807. The following villages are included: Burwalde, Chortitza, Einlage, Insel Chortitz, Kronsweide, Neuenburg, Neuendorf, Nieder Chortitza, Rosenthal, Schoenhorst, and Schoenwiese.

All village names as well as first and last names have been standardized for easier searching and sorting. Since the census was recorded by various village officials and the spellings of names changed from year-to-year, as different men took over the role of village secretary, the spellings of names in the original census lists is meaningless from a genealogical perspective. One interesting feature of this census is that a father might be named Niklas and his son named Klass, or vice versa, even though Niklas is just the Russian form of Klass.

Landholder numbers indicate the official property number assigned to the property and was not a physical address. The corresponding numbers for landless families are meaningless and sometimes change from one census to the next.

Please note that the surname was not recorded for most children, including a wife's children from a previous husband. Today we would classify these children as step-children of the head of the household, but this was not done in the censuses of this time. It appears that the only time the term stepson or stepdaughter was used is when both of the child's biological parents had passed away, and either the head of the household or his wife were the surviving spouse of one of that child's biological parents. Attempts have been made to sort out the often complex blended families in many households.

In some instances, single men living with families, along with maids, servants, and foster children, were identified by both their given names and their surnames. However, this is not always the case. As a result, many servants, maids, and foster children cannot be identified with GRANDMA numbers because only their first names were given. In some cases, servants and maids were children whose parents were still alive but for economic reasons, the children were employed in another household. In other cases, servants and maids were orphans, or a parent was deceased and the surviving parent had remarried and the blended family was not able to accommodate all of the children. Foster children were usually children whose parents have both died. The death of a parent often resulted in dire consequences for the surviving children, especially if the family was landless.

The second last column contains the number in the GRANDMA database．GRANDMA is a reference to the Genealogical Registry and Database of Mennonite Ancestry，version 20－07，published by the California Mennonite Historical Society in July 2020．It should be noted that GRANDMA numbers can change over time，and so the numbers assigned to the individuals in this file may not remain accurate．Yellow highlighted cells indicate that the individual cannot be identified in the GRANDMA database at this time．

A strange anomaly in the census is that fact that the ages given for several families are as of 1801 ，not 1807 ．
The pages for the following households were either missed or were missing when photographed：
－Neuendorf：10－15
－Nieder－Chortitza：1－6；end of the non－landowners section
－Rosenthal：8－12
Printing Note：This document is formatted for $81 / 2 \times 14$ paper．
