This is a loose translation. My main goal was to transmit the information which is of genealogical interest. My comments and additions are in square brackets [ ] and statements in quotes are taken directly from the microfilm without translation. Some terms I have not translated such as Mitnachbar (a landowning member of the community), Hakenbudner (owner of a general store), Eigenthumer (landowner), Einsasse (inhabitant) and Freykulmer (another type of landowner with different rights from that of a Mitnachbar or Eigenthumer), Occupations are not translated. Abbreviations are: Y = years, M = months, D = days.
