# Chortitza Mennonite Settlement Census for October 1816 <br> State Archives of Dnipro Region (DADO) <br> Fond 134, Opis 1, Delo 498 <br> <br> Initial Translation by Tim Janzen; <br> <br> Initial Translation by Tim Janzen; <br> <br> Revised Translation and Comments by Richard D. Thiessen 

 <br> <br> Revised Translation and Comments by Richard D. Thiessen}

The following census lists Mennonites living in the Chortitza Mennonite Settlement in October 1816. This is not an official census, but an economic listing of the settlement that was required every three months.

The census was initially translated by Tim Janzen several years ago and information from the census was entered into the GRANDMA database. This version involved a complete review of the initial translation, the incorporation of additional information, such as occupations, the updating of GRANDMA numbers, and the addition of comments regarding relationships.
All village names as well as first and last names have been standardized for easier searching and sorting. Since the census was recorded by various village officials and the spellings of names changed from year-to-year, as different men took over the role of village secretary, the spellings of names in the original census lists is meaningless from a genealogical perspective.

Landholder numbers indicate the official property number assigned to the property and was not a physical address. The corresponding numbers for landless families are meaningless and sometimes change from one census to the next.

It appears that the data for Insel Chortitza is as of 1814 and not 1816. Unlike some other census lists, infants born in 1816 are nearly always listed as being one year old instead of half a year or a quarter of a year old.

This is the first census to include the newly founded village of Schoeneberg.
Please note that the surname was not recorded for most children, including a wife's children from a previous husband. Today we would classify these children as stepchildren of the head of the household, but this was not done in the censuses of this time. It appears that the only time the term stepson or stepdaughter was used is when both of the child's biological parents had passed away, and either the head of the household or his wife was the surviving spouse of one of that child's biological parents. Attempts have been made to sort out the often complex blended families in many households.

In some instances，single men living with families，along with maids，servants，and foster children，were identified by both their given names and their surnames． However，this is not always the case．As a result，many servants，maids，and foster children cannot be identified with GRANDMA numbers because only their first names were given．In some cases，servants and maids were children whose parents were still alive but for economic reasons，the children were employed in another household．In other cases，servants and maids were orphans，or a parent was deceased and the surviving parent had remarried and the blended family was not able to accommodate all of the children．Foster children were usually children whose parents have both died．The death of a parent often resulted in dire consequences for the surviving children，especially if the family was landless．

GRANDMA is a reference to the Genealogical Registry and Database of Mennonite Ancestry，version 20－07，published by the California Mennonite Historical Society in July 2020．It should be noted that GRANDMA numbers can change over time，and so the numbers assigned to the individuals in this file may not remain accurate．
