Notes:

GRanDMA: The Genealogical Registry and Database of Mennonite Ancestry. GRanDMA contains genealogical information on Mennonite and Hutterite individuals, (1,495,350 as of June 2022) most of whose ancestral lines can be traced to Mennonite and Hutterite communities in Prussia (now Poland) and South Russia (now Ukraine).

Place of residence: Rovnoye (Rownoje, Caucasus, Russia in GRANDMA) - a khutor (small village) founded by Mennonites from Wohldemfuerst and Alexanderfeld to the south of the colony.

Date: when the individual joined the AMLV (date format: dd-mm-yyyy).

Notes (Date of immigration noted on list): America = American continent, not the USA. Most of these individuals immigrated to Canada.

CMBoc: Canadian Mennonite Board of Colonization Registration Forms (1923-1930).

Rows shaded in gray are most likely not Mennonite.
