## State Archives of the Odessa Region, Odessa, Ukraine Fond 6 Opis 1 Delo 5396

Translation and GRANDMA numbers by Glenn H. Penner ([gpenner@uoguelph.ca](mailto:gpenner@uoguelph.ca))

This table contains information on those Mennonite families who were registered in the Molotschna settlement in 1840. The ages appear to be with respect to 1839. Note that most families immigrated before that year and were staying on temporary passports before being officially registered in 1840. Also note that the original file contains additional information not found in the translated table. The last column includes the numbers for the household heads as found in the GRANDMA database (last updated in August 2020).

This table contains information on those Mennonite families who were registered in the Molotschna settlement in 1840. The ages appear to be with respect to 1839. Note that most families immigrated before that year and were staying on temporary passports before being officially registered in 1840. Also note that the original file contains much additional information not found in the translated table. The last column includes the numbers for the household heads as found in the GRANDMA database (last updated in Aug 2020).

Note that several families immigrated from the Mennonite communities in Poland at the time. They are not included in the original table and no details about them are available. They have been added at the bottom of the table presented here.

# Mennonites Immigrants Added to the Molotschna Mennonite Settlement in 1848

## State Archives of the Odessa Region, Odessa, Ukraine Fond 6 Opis 2 Delo 10758

Translation and GRANDMA numbers by Glenn H. Penner ([gpenner@uoguelph.ca](mailto:gpenner@uoguelph.ca))

This table contains information on those Mennonite families who were registered in the Molotschna Settlement in 1848. The document is dated 19 June 1848. Note that most families immigrated before that year and were staying on temporary passports. Also note that the original file contains additional information not found in the translated table. The last column includes the numbers for the household heads as found in the GRANDMA database (last updated in Aug 2020).

Some additional information was obtained from translations of the accompanying Russian documents by Nikolai Mazharenko and Maria Wilms.

## **Mennonites Settling in the Molotschna Mennonite Colony in 1849**

**State Archives of the Odessa Region, Odessa, Ukraine**

**Fond 6 Opis 2 Delo 12750**

**German Translation and GRANDMA numbers by Glenn H. Penner ([gpenner@uoguelph.ca](mailto:gpenner@uoguelph.ca))**

**Russian Translation by Nikolai Mazharenko**

The original file contains documents in German and Russian. The genealogically useful information from both is incorporated into one spreadsheet since the Russian and German documents do not contain the same information. The German table was constructed in 1849 while the Russian census extracts come from the 9<sup>th</sup> national census of 1850. The ages given in the document are from the 1850 census extracts. A few things changed between the 1849 list and the 1850 census. Events such as marriages and births which occurred between the construction of the two lists are indicated in square brackets in the second last column. The last column includes the numbers for the household heads as found in the GRANDMA database (last updated in Aug 2020). It is unknown why the dates of settling in Russia are before the dates of the exit passes issued by the Prussian government.

The German document is found under the gargantuan single-sentence title: “*Verzeichniss des Molotschner Mennoniten Gebiets Amtes ueber die bis herige Auslaender Preussische Unterthanen Mennonitischen Glaubensbekenntnisses welche wuenchen auf immer in Russland zu verbleiben und in die Klasse der heisigen Ansiedler aufgenommen zu werden, denen auf die Dorfgemeinden der Molotschner Mennoniten Kolonien gegen Hierbringung ihrer Auswanderungs Consense in ihre Gemeinschaft aufzunehmen, durch Gemeindesprueche, ihre Zustimmung geben haben.*” Translating these kinds of sentences can be very challenging. One can’t help but admire the archives volunteers who are willing to tackle translations where entire pages are filled with such sentences.

The genealogically useful information from both is incorporated into one spreadsheet since the Russian and German documents do not contain the same information. The German table was constructed in 1849 while the Russian census extracts come from 1851 when each family was registered into the Revision Lists (census lists). The ages given in the document are from the 1851 census extracts. A few things changed between the 1849 list and the 1851 census.
